### Costume Fees (per dance/per class)

Costume fee payments do not cover the cost of any tights, shoes or undergarments a student may need to purchase to wear with their costumes.

- Each family will need to pay a costume fee for every performance dance in which their dancer plans to participate.
- **\$65, per costume, will be DUE by JAN 30, 2023, for each class in which your dancer participates.**
- **Costume Closet:** CDC does have some costume inventory in its company Costume Closet. **If/when we choose to use a Costume Closet costume for your dancer's class, we will notify you before your Jan 30 payment. If you have already paid \$65 for a new costume and we then choose something from our inventory, we will refund \$35 to your account. The charge for the use of each Costume Closet costume is \$30.** CDC keeps all Costume Closet costumes after performances. These costumes are not to go home with dancers after their use in a performance. The usage fee is used to cover the cost of cleaning, storage and maintenance of these costumes.
- CDC may, on rare or special occasions, approve costume choices above \$65 in cost for ONLY Int/Adv Classes, Company pieces or soloists. We will notify dancers' families ahead of time when/if that is the case.
- There may be additional shipping charges added to your account **if your dancer's costume needs to be returned or exchanged for sizing or any other reason.** You will not be charged an additional amount if the \$65 you paid covers the cost of the costume plus any additional shipping charges.
- There may be additional charges added to your account **if your dancer's costume needs to be altered by a seamstress.** (when obtaining a different size from a vendor is not an option). You will not be charged an additional amount if the \$65 you paid covers the cost of your costume plus the cost of the alterations.

- Payment plans for costume expenses are available upon request.
- **Beginning 8/22/2023, a \$25 late fee will be added for every 30 days a balance remains outstanding for the payment of costumes.** This may be avoided if a family specifically arranges a payment plan and/or delayed due date with the owner of the studio.
